

Electrician Job Description

Overview

Cinnamon Energy Systems (CES) is a Los Gatos-based solar, battery and electrification contractor with a heritage of over 15,000 customers since 2001. We pride ourselves on using the latest and best money-saving equipment to provide a premium experience to our business and residential customers in the San Francisco Bay Area.

As electricity rates continue to increase – while at the same time we transition to EVs and electrify our buildings with heat pumps – it becomes even more important to plan for electrification and make the right equipment choices. Over the past few years CES has grown to become the leading solar, battery and electrical upgrade installer in Silicon Valley.

As a result of this success, we are looking for a qualified electrician to join our team>

Functions & Responsibilities:

- Perform panel and service upgrades on residences
- Both overhead and underground EV charger installations
- backup subpanel installations and wiring, residential and light commercial wiring and troubleshooting
- Stucco, framing and weatherproofing to pass inspections
- Ensure attention to detail with an emphasis on quality and safety
- Follow OSHA safety procedures
- Attend city and utility inspections on behalf of customers
- Working with Lead Installers to complete wiring and grounding
- Loading, unloading and cleanup of job equipment and materials; and other related tasks
- Customer Satisfaction
- Consistently show professionalism & diplomacy to assure customer satisfaction
- Effectively escalate customer situations when unable to achieve resolution
- Teamwork and Dependability:
- Demonstrate ability to work effectively with other team members and company employees.
- Always maintain a professional image and decorum
- Relate to the public and to customers in a professional, courteous, and respectful manner,

- appropriately responding to their concerns
- Meet established attendance guidelines
- Demonstrate attentiveness and comprehension at all company training/meetings
- Advocate service delivery system improvements
- Performs other allied duties as assigned by supervisor

Requirements & Qualifications:

- High School degree
- 1 or more years of construction/electrical experience
- Be able to communicate effectively to supervisor when needed
- Skills in using common construction tools
- Willingness & ability to work overtime when needed
- Maintain a clean driving record
- Physical Requirements & Work Environment:
- Excellent mobility, ability to sit, stand, crawl, walk, bend, stoop, use of hands/fingers, be able to climb ladders, work with tools and be able to reach for an extended period of time. Ability to lift up to 50 lbs.
